Socio-economic impact

Economic value distributed

In 2018, we generated an economic value of Euro 684 million (+5.5% on 2017).
The value distributed to stakeholders was Euro 547.6 million (80.1% of the value generated).

Direct impact generated by our "Airport cities"

Socio-economic impact

Benefits generated for the Italian manufacturing sector

Impact on tourism sector

7 million: number of **tourists** arriving in Lombardy through Malpensa airport in 2018 (of which **1.4 million from outside Europe**).
2.3 million: number of **tourists** arriving in Lombardy through Linate airport in 2018.
The impact of our airports on tourism sector, mainly Lombardy and North West Italy, translates into:

Connectivity area

SEA is ranked among the leading European airport systems

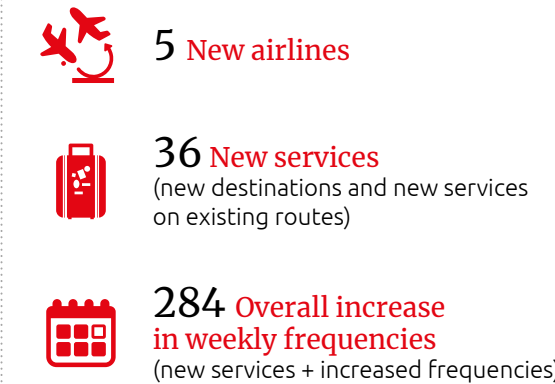

Malpensa in 2018 ranked above the European average and is the best among the European airports in its category (15-25 million pax).

Linate, with 83.7% of punctual departing flights, was first in terms of departing punctuality among all European airports.

* European Airport Punctuality Network

Increase in connectivity level of Malpensa in 2018

Destinations and flight time in Europe

	Malpensa	Linate
No. European airports connected by same day outbound and return travel	380	371
Average connection time (minutes)	333	359

Malpensa best Italian airport (22nd in Europe).
Linate: 4th nationally.

European GDP accessibility

With **81.8% of European GDP** reachable within **2 hours**, Malpensa (as the only Italian airport) placed 9th in the European top 20.

4

Protection of the environment and region

Airport Carbon Accreditation

SEA participates in the Airport Carbon Accreditation initiative launched by ACI Europe (Airport Council International) to promote the fight against climate change.

In 2018, we confirmed the European leadership of our airports of Linate and Malpensa within the "3+ neutrality" Group, together with 40 other airports (out of a total of over 500 European airports).

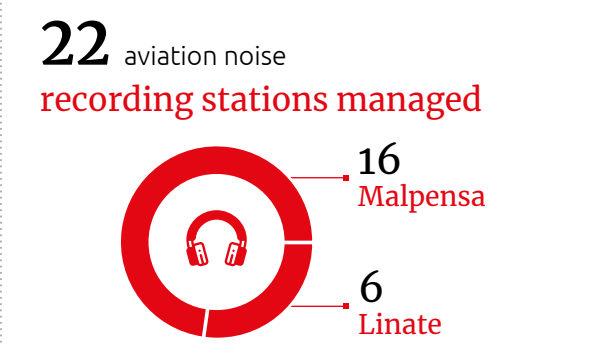

Energy consumption

-4.1 %
Reduction of energy consumption of our airport system on 2017
Positive containment trend started in 2009 confirmed

Noise

Additionally **4 mobile specific measuring campaign stations**
We operate in collaboration with ARPA (Environmental Regional Protection Agency) to improve the monitoring of noise emissions and to protect the region.

5

Quality and innovation of passenger services

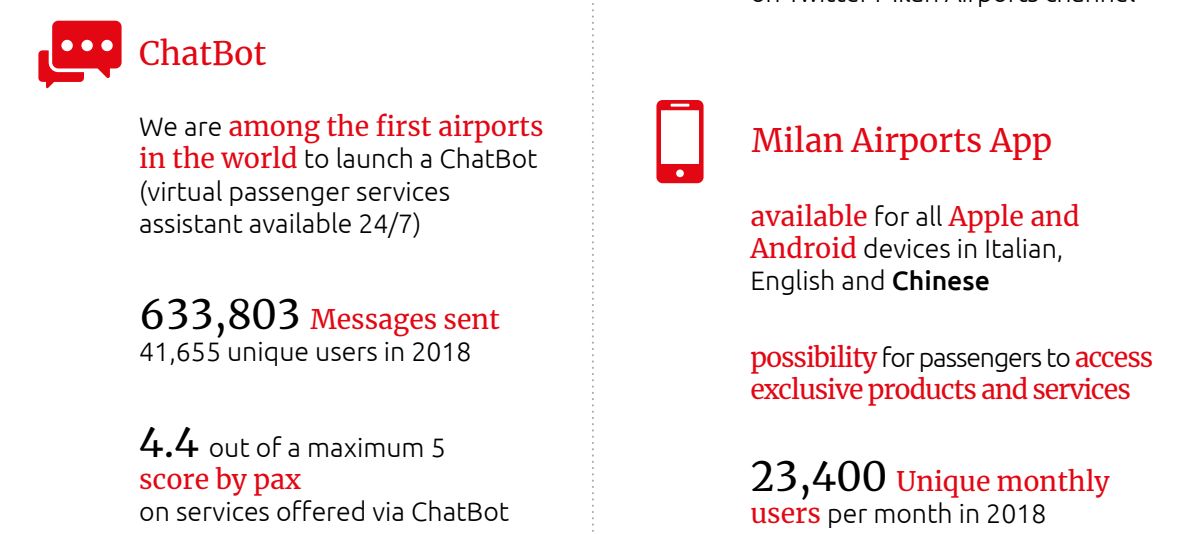

Best in Italy - Service Champions 2018/2019*

SEA's airports came top of the consumer rankings in terms of the quality of services offered in the "Large Airports" category according to the "2018-2019 Service Champions", the widest survey in Europe in terms of services offered by businesses.

*Survey conducted by the German Quality and Finance Institute which assessed satisfaction with the services of 900 companies in over 100 different economic sectors through an online survey on a sample of 200,000 persons representative of the Italian population. From the answers thus obtained, the percentage of customers assessing the service of each company as very good was calculated. The resulting index constitutes a Service Experience Score (SES).

Passenger digital services

6

Work well-being and work-life balance

416 employees involved in a pilot project on smart working launched in 2018

Social benefits of smart working*

*Average monthly values per employee concerning 4 days/month implementation

Certification Family Audit

From 2016, we acquired the Family Audit certification, which reflects our constant commitment to the work-life balance of our staff.

22 Activities in favour of work-life balance
Some of the issues dealt with in 2018:

- Flexible start times
- Smart working
- Choice of work office
- Vacation and leave options

*Cumulative data concerning entire company population involved in 2018
